PLANT AND SOIL

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(Royal Netherlands Society of Agricultural Science)

Managing Editor: G. H. Arnold, Institute for Soil Fertility, Haren Gr.), Netherlands.

Assistant Editors: J. K. Smit, Epe, and A. Houwers, Wageningen.

Druk: Koninklijke Drukkerij Van de Garde B.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

J. A. Adepetu and R. B. Corey, Changes in N and P availability and P fractions in Iwo soil from Nigeria under intensive cultivation 309

D. Atkinson, Some observations on the root growth of young apple trees and their uptake of nutrients when grown in herbicided strips in grassed orchards 459

K. A. Ayotade, Kinetics and reactions of hydrogen sulphide in solution of flooded rice soils 381

O. Babalola and R. Lal, Subsoil gravel horizon and maize root growth I. Gravel concentrations and bulk density effects 337

O. Babalola and R. Lal, Subsoil gravel horizon and maize root growth II. Effects of gravel size, inter-gravel texture and natural gravel horizon 347

M. S. Bajwa and K. Singh, Studies on the boron tolerance of berseem (*Trifolium alexandrinum* L.) and oats (*Avena sativa* L.) 45

N. K. Banerjee and L. M. Shukla, *Short communication.* Studies on the effect of changing the environments of paddy roots on the uptake of zinc, manganese and iron 643

J. B. Bole, Uptake of ^{3}HHO and ^{32}P by roots of wheat and rape 297

L. M. Bordeleau, R. Lalande, C. R. de Kimpe, J. Zizka et M. Tabi, Effects des poussières d'amiante sur la microflore tellurique 619

F. M. Chaudhry, S. M. Alam, A. Rashid and A. Latif, *Short communication.* Mechanism of differential susceptibility of two rice varieties to zinc deficiency 637

F. M. Chaudhry, M. A. Kausar, A. Rashid and Rahmatullah, *Short communication.* Mechanism of nitrogen effect on zinc nutrition of flooded rice 649

D. R. Cullimore and A. E. McCann, Influence of four herbicides on the algal flora of a prairie soil 499

S. S. Dahiya and Mahendra Singh, *Short communication.* Effect of $CaCO_3$ and iron application on the availability of manganese in light-textured soil 239

W. J. Davies and T. T. Kozlowski, Variations among woody plants in stomatal conductance and photosynthesis during and after drought 435

A. van Diest, In memoriam ADRIAAN CORNELIS SCHUFFELEN 1

F. G. Fernandez, M. Caro and A. Cerdá, Influence of NaCl in the irrigation water on yield and quality of sweet pepper (*Capsicum annuum*) 405

A. C. Gaur and K. C. Misra, Effect of simazine, lindane and ceresan on soil respiration and nitrification rates 5

J. T. Gilmour, Micronutrient status of the rice plant. I. Plant and soil solution as a function of time 549

J. T. Gilmour, Micronutrient status of the rice plant. II. Micronutrient uptake rate as a function of time 559

D. K. Das Gupta and P. Basuchaudhuri, *Short communication.* Molybdenum nutrition of rice under low and high nitrogen level 681

E. Gurovich and Y. Avnimelech, The distribution of ammonium ion from a localized source into the soil 101

Michael C. Hampson and Paul R. Thompson, *Short communication.* A quantative method to examine large numbers of soil samples for *Synchytrium endobioticum,* the cause of potato wart disease 659

B. H. Janssen and R. van der Weert, The influence of fertilizers, soil organic matter and soil compaction on maize yields on the Surinam "Zanderij" soils 445

S. C. JARVIS, L. H. P. JONES and C. R. CLEMENT, Uptake and transport of lead by perennial ryegrass from flowing solution culture with a controlled concentration of lead. . . . 371

W. R. JOHNSTON and JOHN PROCTOR, *Short communication.* A comparative study of metal levels in plants from two contrasting lead-mine sites 251

W. R. JOHNSTON and JOHN PROCTOR, *Short communication.* Metal concentrations in plants and soils from two Britisch serpentine sites 275

U. KAFKAFI, R. GILAT, D. YOLES and Y. NOY, Studies on fertilization of field-grown irrigated alfalfa I. Effect of potassium source and time of application 165

A. J. KEMPERS, *Short communication.* Determination of the C/N ratio in a chromic acid soil digest 699

A. A. KHAN and G. K. ZENDE, *Short communication.* The site for Zn-P interactions in plants. 259

J. LEE, R. R. BROOKS, R. D. REEVES, C. R. BOSWELL and T. JAFFRÉ, *Short communication.* Plant-soil relationships in a New Caledonian serpentine flora 675

KUK-KI LEE and TOMIO YOSHIDA, An assay technique of measurement of nitrogenase activity in root zone of rice for varietal screening by the acetylene reduction method. . . 127

G. LIM and H. L. NG, Root nodules of some tropical legumes in Singapore. 317

S. LOGANATHAN and K. K. KRISHNAMOORTHY, Total uptake of nutrients at different stages of the growth of groundnut and the ratios in which various nutrient elements exist in groundnut plant 565

S. LOGANATHAN and K. K. KRISHNAMOORTHY, Uptake of radioactive calcium by groundnut (*Arachis hypogaea* L.) and efficiency of utilisation of applied calcium. 571

K. K. MATHAN and A. AMBERGER, Influence of iron on the uptake of phosphorus by maize 413

R. S. MEHROTRA and D. K. GARG, *Short communication.* Effect of organic amendments and fungicides on root rot and wilt of pea (*Pisum ativum* L.) 691

D. N. MUNNS and R. L. FOX, Comparative lime requirements of tropical and temperate legumes 533

D. N. MUNNS, R. L. FOX and B. L. KOCH, Influence of lime on nitrogen fixation by tropical and temperate legumes. . 591

H. M. NABHAN, J. VANDERDEELEN and A. COTTENIE, Chelate behaviour in saline-alkaline soil conditions 603

S. K. NAIR and N. S. SUBBA RAO, Microbiology of the root region of coconut and cacao under mixed cropping 511

E. K. S. NAMBIAR, The effects of water content of the topsoil on micronutrient availability and uptake in a siliceous sandy soil. 175

E. K. S. NAMBIAR, The effects of drying of the topsoil and of micronutrients in the subsoil on micronutrient uptake by an intermittently defoliated ryegrass 185

PETER T. ONESIROSAN, Comparison of *Rhizoctonia solani* isolates from web blight and basal canker of cowpea and from soil. 135

N. S. PASRICHA, V. K. NAYYAR, N. S. RANDHAWA and M. K. SINHA, *Short communication.* Influence of sulphur fertilization on suppresion of molybdenum uptake by berseem (*Trifolium alexandrinum* L.) and oats (*Avena sativa* L.) grown on a molybdenum-toxic soil 245

G. J. PATEL, B. V. RAMAKRISHNAYYA and B. K. PATEL, Effect of soil and foliar application of ferrous sulphate and of acidulation of soil on iron-chlorosis of paddy seedlings in *goradu* soil nurseries in India 209

KESORN PORANANOND and P. G. E. SEARLE, The effect of time of fertiliser-soil contact, distance of phosphate movement and fertiliser solubility on phosphate availability to early growth of lowland rice. 391

I. D. PULFORD and H. J. DUNCAN, *Short communication.* The effect of tar contamination on the extractable metal levels in soil 695

B. S. PURCHASE, *Short communication.* Nitrogen fixation associated with *Eichhornia crassipes* 283

RAPER C. DAVID, JR., DAVID T. PATTERSON, LAWRENCE R. PARSONS and PAUL J. KRAMER, Relative growth and nutrient accumulation rates for tobacco 473

P. E. RASMUSSEN, R. E. RAMIG, L. G. EKIN and C. R. ROHDE, Tissue analyses guidelines for diagnosing sulfur deficiency in white wheat 153

M. N. REDDY, G. RAMAGOPAL and A. S. RAO, *Short communication.* Phenolic acids in groundnut seed exudates 655

EDWARD R. RHODES, *Short communication.* Simple phosphate sorption index on some soils of the humid tropics 263

G. A. RODGERS, *Short communication.* Nitrogenase activity in *Nostoc muscorum;* recovery from desiccation. 671

J. RYAN, S. MIYAMOTO and J. L. STROEHLEIN. *Short communication.* Preliminary evaluation of H_2SO_4 application methods to soils 629

HANS RIEKERK, *Short communication.* Utilization of a root pressure chamber for nutrient uptake studies 279

M. A. SCAIFE and A. BARNES, *Short communication.* The relationship between crop yield and petiole nitrate concentration at various growth stages 705

H. N. SHAHI, *Short communication.* Studies on chemical composition of *Chenopodium album* L. 271

H. M. EL-SHARKAWI and F. M. SALAMA, Effects of drought and salinity on some growth-contributing parameters in wheat and bearley 423

A. K. SHARDA, *Short communication.* Influence of soil bulk density on miscible displacement of nitrate 267

R. C. Sharma, J. S. Grewal and Mukhtar Singh, Soaking of seed potatoes in phosphate solution to economise on the fertilizer imput 145

E. Sibbesen, *Short communication.* A simple ion-exchange resin procedure for extracting plant-available elements from soil. 665

B. B. Singh and J. P. Jones, Phosphorus sorption isotherm for evaluating phosphorus requirements of lettuce at five temperature regimes. 31

Rachhpal Singh and M. K. Sinha, Reactions of iron chelates in calcareous soil and their relative efficiency in iron nutrition of corn 17

J. P. Singhal and C. P. Singh, The influence of nemagon fumigation on the major nutrients of a fertilized soil . . . 69

M. K. Sinha, D. P. Sinha and H. Sinha, Oraganic matter transformations in soils. V. Kinetics of carbon and nitrogen mineralization in soils amended with different organic materials 579

C. Sonneveld, S. J. Voogt and P. A. van Dijk, Methods for the determination of toxic levels of manganese in glasshouse soils 487

M. H. Stone and A. Wild, *Short communication.* Rate of nitrification of ammoniated vermiculite. 633

P. R. V. Subramonia Iyer and M. C. Saxena, Kinetic studies on the inducement in uptake and transport of P by maize. (*Zea mays* L.) as a result of pre-uptake NO_3–N supply . . 55

M. E. Sumner, Application of Beaufils' diagnostic indices to maize data published in the literature irrespective of age and conditions. 359

B. Venkateswarlu, *Short communication.* Influence of low light intensity on growth and productivity of rice, *Oryza sativa* L. 713

W. B. Ventura and T. Yoshida, Ammonia volatilization from a flooded tropical soil. 521

J. Visser, Soil aeration capacity, an index for soil structure, tested against yield and root development of apple trees at various soil treatments and drainage conditions 221

M. G. Volz and L. Jacobson, Nature and magnitude of calcium uptake by excised roots of vetch and barley. 79

K. Vijayalakshmi and C. Dakshinamurti, Limitations of the ^{32}P isotope injection technique for the study of the root systems of wheat, mung and cowpeas. 113

C. S. Weeraratna, M. Watson and D. T. Wettasingha, Effect of mineralization of tea prunings on some soil characteristics. 93

D. O. Wilson, Influence of added manganese on nitrification in a low-manganese soil 687

M. A. Wilson and K. M. Goh, *Short communication.* C-13 nuclear magnetic resonance spectroscopy of humic substances 287

R. E. White, Studies on mineral ion absorption by plants III. The interaction of aluminium, phosphate and pH on the growth of *Medicago sativa*. 195
